

SHOCKING NEW SCIENTIFIC DISCOVERY COULD SAVE YOU \$1000 OR MORE ON YOUR ELECTRIC BILL EVERY YEAR

Sign Up to Receive Free Electricity On Your Home for Life
It's not too good to be true ...It's too good to be ignored!

We want the world to know that it will soon be possible to generate electricity at no operating cost and without polluting the environment using the device shown here. We would like to invite you to sign you up to receive "free electricity" on your home. After being registered, you will be in line to receive 26,000 kilowatt hours (kWh) of "free electricity" every year if and when we are successful with our program. When we are ready to market the generator, you will be invited to a live demonstration at a home near you that has been disconnected from the grid. Then our plan is to put a generator at your home that will be installed, maintained and owned by our company. The excess energy the generator supplies will be sold back to current electricity suppliers under the new

Electricity Deregulation laws, thereby generating revenue for our company and enabling us to supply your power at no cost. It is our intent that you will get 26,000 kWh of electricity for free as a fair exchange for allowing us to put our generator on your property. Depending upon what you pay for electricity now, this is worth \$1000-3000 per year. The technology is explained on a two-hour video available on our web site, www.innovativetech.us.

Fill out the application form to sign up. Once signed up, you will receive a certificate via return mail that will entitle you to receive 26,000 kWh of electricity each year if and when we can bring the technology to market. In order to qualify, you must attend the public demonstrations in your state or send a representative when the technology is released. You can sign up by paying a \$9 processing, shipping and handling fee to be registered and you will owe us nothing in the future. If you live in Canada, we ask that you pay us in U.S. funds and include an extra \$1 to cover the higher postage rates. We will not process your application unless we receive the payment with it.

We will attempt to accommodate everyone who registers, but this offer is strictly on a first come, first served basis. If you wait until the technology has been released before you sign up, it may cost \$1000 or more.

Application for Free Electricity

Before you fill out the information below, please read these simple guidelines first. In order to make our program work, we must enforce the following rules:

1. You must apply for a residence. No businesses or commercial properties are allowed!
2. There is only one unit permissible per residence. It must be within the U. S. (50 states only, no territories) or Canada.
3. In order to qualify for this program, you must attend one of the public demonstration in your state when we release the technology. If you can't attend, you can send a representative with a notarized letter from you.
4. We will not process your application unless we receive the payment with it.

We are very grateful for your cooperation and will be delighted to add you to our list of homeowners in line to receive free electricity.

To sign up, fill out the form below and mail the form to the address on the form. If you're paying by check or money order, make it payable to Innovative Technologies Group.

Innovative Technologies Group, LLC

3515 Sycamore School Rd. #125-301, Ft. Worth, Texas 76133

Please sign me up to receive "free electricity". I will pay the \$9 processing, shipping & handling fee. Canadian residents add \$1 for extra postage.

I will pay with: Check Cash/Money Order (U.S. funds only) Visa or Master Card
